

Trinity Training

Developing key people to develop your organisation

2019

Welcome to our latest newsletter for our clients & colleagues, past, present & future. In September last year, Trinity Training was 30 years old; that feels like a tremendous achievement in these uncertain times. However we have to thank all our clients over the years & you'll see from the list below, there are many people to thank!

Our success is thanks to people in these organisations

Independent fostering providers

Acorn House

AFA

Alliance Foster Care

Banya Family Placement

Capstone Foster Care

Caritas Care

CFT

Childcare Bureau

Community FosterCare

Compass Fostering

Credo Care

Family FosterCare

Family Placement.com

Foster Care Associates

Fostering Network

Fostering Options

Fostering Partnership

Fusion Fostering

Future Families

Lika Family

Nexus Fostering

Park Foster Care

Plus One Fostering

Progress Care Solutions

Quality Fostering

Regional Foster Placements

Supported Fostering Services

SWAP Foster Care

SWISS

TACT

TACT/PPS

UHCW & the GPs Medical Education Department
and close to 30 dental & GP practices from Essex & London to Leeds & Cumbria!

And there are many more on the back page!

Foster care in the spotlight

Completing the TSD standards portfolio & then keeping it up to date can sometimes be an unwelcome pressure, but help is at hand.

TSD Standards
portfolio!

We run a full day drop in workshop for foster carers & their social workers to get support, advice & resources for their portfolio. The feedback we have received from all involved is that this helped make sense of the task and break the back of it so it became more achievable.

Contact us to find out what is involved and how we can make the difference for your foster carers and their social workers.

Our full range of foster care workshops

Safeguarding: child protection, safer caring, allegations, record keeping, promoting contact, child sexual exploitation.

Trauma & abuse: introduction to attachment, separation & loss, signs & symptoms of physical & sexual abuse, caring for children who have been neglected, caring for children who have been sexually abused, fostering children after domestic abuse.

Understanding children & young people: child development, understanding behaviour, promoting positive behaviour & relationships (1 & 2), communication with children, working with adolescents, supporting young people who self harm, foster care & disability, fostering children on the autism spectrum.

Transition & change: moving children on, preventing placement breakdown, preparing for independence & leaving care.

Other workshops: work effectively with other professionals, peer mentoring, delegated authority, train the trainer, skills to foster.

Safeguarding that works!

Those of you who have been receiving our newsletters in recent years will know that we have developed quite a reputation for our workshops on safeguarding children & adults at risk. These workshops are designed for different groups of people, such as enablement & home care workers, day centre staff, specialist staff such as those working with the homeless, residential care staff, local authority staff in frontline jobs such as sport & leisure, housing, environmental health & licencing, councillors & dental practices.

For all these groups, we write specific workshops to make it relevant & practical, with case studies, quizzes & other practical activities. We also offer help with writing or updating policies & procedures so they meet the requirements of the relevant regulator, CQC or Ofsted.

We help staff & managers gain the skills to record a safeguarding referral in an accurate & appropriate way. Warwickshire County Council offers very good guidance on their website

<https://apps.warwickshire.gov.uk/api/documents/WCCC-1068-583>

Let us know if you would like us to send you a copy.

We advise staff & managers on how to make & follow up a safeguarding referral; each local authority & local safeguarding board is different & has different priorities, procedures & resources. Sometimes it is a minefield & so we do the research for you as part of the training workshop.

STOP PRESS! As a result of requests from clients, we have now developed two different refresher workshops for dental practices as well as an in-depth workshop for frontline staff in local councils. Do get in touch to find out more.
